MONTGOMERY TRIBUNE.

FRIDAY, JUNE 10, 1905.

POPULAR LADY CONTEST.

The following are the conditions of the TRIBUNE's Grand Gift Popular Ladies contest:

Every person paying money to the TRIBUNE for subscription, advertising or job printing will be entitled to votes at the rate of 200 votes for every dollar thus spent. Twenty-five per cent additional votes will be allowed for new subscribers. Votes will be issued at the time the money is paid and will be good for one day. No votes will be issued unless cash accompanies order. No ballots on which one name has been erased and another substituted, nor on which the number of votes has been changed will be counted.

Six gold watches will be distributed among the six townships in the county. To the leader in the township who has the highest number of votes over any other leader in any other township will be given a genuine Elgin movement in a 25 year, 14 karat engraved and diamond studded gold filled case, as a grand prize.

To the leader in each township, other than one which wins the grand prize, will be given a United States Watch Co., Waltham Massachusetts movement in a twenty year engraved gold filled case. All watches have the same guarantee of the old reliable firm of A. Vogt & Son, bank of them that they would have, if purchased from them direct.

No prize will be given to any township where the leader does not poll 2,000 votes. In every township of the six mentioned where the leader polls less than 2,000 votes the gold watch will not be given. Each township has thus a chance to win either the gold watch or the diamond studded watch.

The contest will close Dec. 22, 1905, at 3 p.m.

Votes will be given from now on until the time of closing the contest. Anyone may enter a candidate by making a proper payment and giving the contestant's name and township.

No votes will be given on orders for stamped envelopes or postal cards except for the cost of the printing done at this office.

Stylishly engraved visiting cards of latest script and type texts, announcement cards, wedding invitations and society programs done at this office at reasonable prices.

Save 1/2 Your Paint Bills

by using **Wet's** Superior White Lead, the most durable and therefore the most economical lead or paint made. It has since in it. The zinc gives the paint a beautiful gloss and prevents the lead from destroying the wood which is the life of all paint. "Pure Lead" by itself will eat and destroy the leaded oil, thus causing the paint to become porous and open and dust off. **Wet's** Superior White Lead is better and cheaper than mixed paints because one-half of every gallon of mixed paint is leaded oil for which you pay \$1.50 per gallon and get an old, stale, unseasoned leaded oil. Buy fresh oil from your dealer's barrel at its true value. 4 1/2 gallons leaded oil and 100 pounds of **Wet's** Lead will make 6 1/2 gallons best paint ready to use, that will cost you no more than one standard brand of lead and much less than mixed paint and will last twice as long as either. Write D. T. Wet's White Lead Co., St. Louis, Mo., for their booklet "Facts About White Lead." **Wet's** Superior White Lead is for sale by

CAN'T STOP GROWING.

This is Why the J. Walter Thompson Company Moves to New Headquarters.

From the New York Globe.

A man who had not stopped growing at forty would be a giant of giants. It is the same with a business firm as with an individual. The firm which has grown for forty years and is still growing is a business giant.

The J. Walter Thompson Company, which, after forty years of growth, has again outgrown its office accommodations, is just such a giant among advertising agencies. Growth is the highest manifestation of life. When growth stops, decay begins, it follows necessarily that a growing agency is a live agency. Fortunately, growth is a measurable quantity. When a boy's clothes get too tight for him—when his coat cuffs slip toward his elbows and his vest refuses to button—it's plain he has outgrown them. Whether for work or for comfort, he must have a larger suit.

That's the way the J. Walter Thompson Company outgrew its former quarters in the old Times Building. The accommodations got to be too tight a fit for work or comfort, and so the firm has removed to new offices at Twenty-third street and Fourth avenue, where 13,000 square feet on one floor, fit accommodation for a giant business, give the necessary working and breathing space.

There is only one explanation of business growth, and that is business success. And behind any business success there must be superior qualifications and equipment for the conduct of the business engaged in.

The new offices of the J. Walter Thompson Company, at Twenty-third street and Fourth avenue, are a very practical illustration of the success which has given the name of Thompson distinction in the advertising field for the past half century. But these new offices speak not only for past growth, but also for present strength. They reflect the present successful and profitable conduct of business for a clientele of more than eight hundred active customers, many of whom are numbered among the largest and most successful advertisers of the country.

Huge Task

It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache and headache, and depression. In Electric Bitters, however, I found a cure, and by their use was restored to health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by E. B. Moore, druggist; price 50c."

Tried It Ten Years.

A Missouri editor, going away, left a minister in charge of his paper. A day or two later from "a-wayback" subscriber came, which read: "You know d— well I paid my subscription the last time I was in town. If I get any more such letters I will come down and maul h— out of you." The minister answered: "I have been trying to maul that thing out of the editor for ten years, and if you really come down and maul it out of him, then, my dear sir, I have twenty members of my church you can operate on."—Milan Standard.

A little girl stood in a city meat market, waiting for some one to attend to her wants. Finally the proprietor was at liberty, approached her and said benignly: "Is there anything you would like, little girl?" "O, yes sir, please. I want a diamond ring and a seal-skin sacque, a real nobleman and a pug dog and box at the opera, and O, ever so many other things! But all ma wants is ten cents worth of bologna."—Centralia Courier.

Callaway Horses Selling Well.

James V. and Claud Dunlap, Fulton horse fanciers, who have a stable of high-class animals in Chicago, have had a very successful season there so far. They have shipped about 20 combined horses and drivers to that market this spring, and among some of their deals during the past few weeks have been the sale of the Cleveland Bay drivers purchased of Judge Murry for \$2,100; a combined horse, High Ball for \$450; a mare, Trilby, for \$800, and the show mare Lucile, to J. N. McHenry of Chicago, for \$1,450. The latter is a handsome brown mare, with white markings, sired by Ortiz Rose, a stallion raised in Callaway, but now owned by Ben Middleton, at Mexico. She was shown last year at Montgomery City and other fairs, and was many prizes.

Dunlap brothers' success in Chicago is pleasing to their friends in the Kingdom, and is proof that it pays to raise good horses.—Fulton Gazette.

A Bad Scare.

Some day you will get a bad scare, when you feel a pain in your bowels, and fear appendicitis. Safety lies in Dr. King's New Life Pills, a sure cure, for all bowel and stomach diseases, such as headache, biliousness, constipation, etc. Guaranteed at E. B. Moore's drug store, only 25c. Try them.

James H. Hyde's \$125,000 salary drawn from the Equitable company and its barnacles, has called attention to the enormous sums paid to officers of all the big insurance companies. First, second and third vice presidents of all the big companies receive more money than the president of the United States for a year's work and they are not obliged to entertain so lavishly. Nevertheless, most of them do fairly well in the matter of living and spending money.

Jonesburg Journal.

Mrs. Dave Jennings and little daughter, Martha Jane, came down from Montgomery City Saturday to visit her sister, Mrs. George Wilson. Mr. Jennings came down Sunday morning.

The bee industry if conducted on a business principle, will pay big returns. Last year John Nebel sold \$1,600 worth of honey from 100 colonies of bees, besides his sale of queen bees which amounted to several hundred dollars.

Mrs. A. A. Hess and Mrs. Bernard Taylor attended Confirmation services in Montgomery City Thursday morning and visited Mrs. Frank Hayden until the afternoon train, when they returned to Jonesburg.

There was some queer voting done here Saturday at the Local Option election. Think of a man voting "dry" with a jug of whiskey in his house. Even asking men to vote "dry" to drive the evil out of the county for the sake of his boys. If these Local Option advocates really want their pleadings to have effect, they should clean their own house first.

Mr. Stephens will also represent the editors of America at the International Press Congress.—Mexico Ledger.

Valuable Art Collection.

Charles L. Pendleton of Providence, has given to the Rhode Island School of Design the art collection which he has gathered through a great many years of collecting. His collection comprises eighteenth century English and colonial furniture, pictures, antique Chinese porcelain, Chinese china of the eighteenth century, early eighteenth century English pottery, antique rugs and sixteenth century textiles.

Missouri's Banks.

The report of W. F. Keyser, secretary of the Missouri Bankers' Association, has just been published and it contains some interesting statistics.

The report shows that there are now in the state 95 national banks; 765 state banks; 52 private banks; 24 trust companies, making a total of 909.

During the past year only one bank was closed, namely, the Midleton bank at Waverly, capital \$15,000, on May 2, on account of absconding cashier.

According to this report the Missouri banks and trust companies show the following conditions:

National Banks—Capital stock, \$24,015,000; deposits \$35,000,000.

State banks—Capital stock, \$21,704,355; deposits \$154,339,304.

Private Banks—Capital stock, \$788,500; deposits, \$7,500,000.

Trust companies—Capital stock, \$17,610,200; deposits, \$62,300,000.—Ex.
